## Portfolio

### smorote.com

Features live links to major projects and coding challenges, showcasing hands-on experience and problem-solving skills.

## Projects

### Catalyst (catalyst.smorote.com)

Full Stack Bug Tracker

Written with Microsoft Blazor, and utilizing Cloudflare, PostgreSQL, Railway, and Docker. It supports multi-tenancy keeping each company enrolled separate, and uses authentication to ensure users can't perform actions above their assigned role.

### Blog (blog.smorote.com)

Full Stack Blog

Blog I wrote and maintain written with Microsoft Blazor, hosted on Railway, and using Cloudflare for DDOS protection. Has author, and moderator roles to allow for posting, and comment moderation. Includes a custom written RSS feed.

### Rolodex (rolodex.smorote.com)

Full Stack Contact Manager

Written with Blazor, uses PostgreSQL to store each user's contacts separately giving them access only to their own data. Includes image uploading, and the ability to email contacts directly from the application.

## Professional Experience

### PT Dispatch Supervisor

UPS

Jul 2020 – Jun 2024 | Acworth, Georgia

- Responsible for up to 135 individual routes and for typical days
- Cross managing 3 centers over peak season
- Creating programs to automate tasks and reduce workload for entire team
- Served in roles for CRIS, Customer Experience, Database management, and SNAP map maintenance
- Trained supervisors for roles across operations

## Certificates

### Coder Foundry

Earned Challenge Coin in addition to completion of course.

### FCC Amateur Technician License

KQ4HSO
